

Product Overview

As with many common laboratory measurements, LuminUltra's test kits require the use of reliable liquid transfer equipment and mixing vessels. For flexibility and convenience, LuminUltra recommends the use of standard test tube racks and adjustable micropipettors for analyzing samples with its test kits. **EQP-BUN** fits this need and is applicable to all test kit models, thus requiring small investment with great flexibility!

Product Compatibility

For your convenience, this product is compatible with all LuminUltra test kits.

Product Features

This bundle of equipment has the following features:

Product	Compatible With:
100-1000µL Adjustable Micropipettor (Cat. #: EQP-MP1)	100-1000uL (Blue) Polypropylene Pipette Tips (Cat. #: DIS-PT1)
1-5mL Adjustable Macropipettor (Cat. #: EQP-MP5)	1-5mL (Natural) Polypropylene Pipette Tips (Cat. #: DIS-PT5)
12mm Culture Tube Rack (Cat. #: EQP-TR12)	12x55mm Polypropylene Test Tubes (Cat. #: DIS-CT12)
17mm Culture Tube Rack (Cat. #: EQP-TR17)	17x100mm Polypropylene Test Tubes (Cat. #: DIS-CT17)
