In recognition of the successful completion of the A2LA evaluation process, accreditation is granted to this laboratory to perform nucleic acid extraction and quantitative PCR analysis of biomarkers associated with specific hosts on various environmental samples for the purpose of microbial source tracking:

Molecular Biology¹

Detection of Host Associated Gene Marker by qPCR
Sample Processing
Nucleic Acid Extraction
Standards Preparation and Storage
qPCR Analysis

¹This scope meets the A2LA P112 Flexible Scope Policy.

*Joint ISO-ILAC-IAF
Communique on the
Management Systems Requirements of ISO/IEC 17025,
General Requirements for the competence of testing and
calibration laboratories*

*A laboratory's fulfillment of the requirements of ISO/IEC 17025 means the laboratory meets both the technical competence requirements and **management system requirements** that are necessary for it to consistently deliver technically valid test results and calibrations. The **management system requirements** in ISO/IEC 17025 are written in language relevant to laboratory operations and operate generally in accordance with the principles of ISO 9001.*
